

Model 6300

A Teller Tool for Success

Automating the manual currency handling portion of your tellers responsibilities allows them to become your marketing sales force. Remember they are the primary contact with your depositors. What tellers are commonly lacking is the quality time to initiate a real dialogue with the depositor to discuss other products and services your institution offers.

Currency Dispensers increase security, automate vault buys, reduce currency levels, automate balancing, and dramatically increase teller efficiency and retention. The end result, you give your tellers a tool to successfully implement your marketing plan and create a cross-selling environment.

MAGNER[®]

Proven Performance and Quality

Model 6300

A high capacity currency dispenser that maximizes teller productivity, enhances customer service, increases security, automates vault buys, and ensures accuracy, by automating the manual currency handling portion of your tellers responsibilities.

Productivity

- Process more transactions in less time
- Simple end-of-day balancing
- Automated vault buys eliminates need for dual control
- Greatly increases teller efficiency

Customer Service

- Swift and accurate transactions lead to better and more confident relationships with your customers

Security

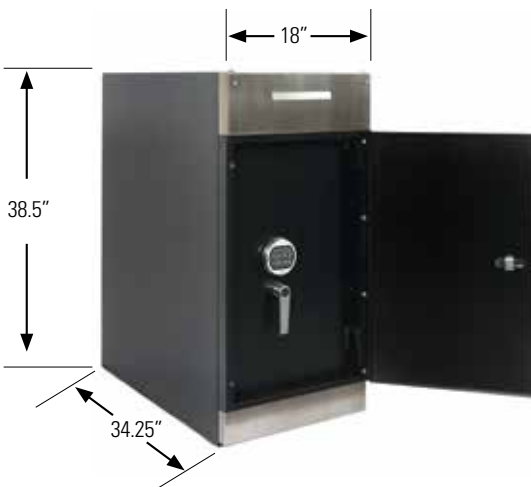

- Secure UL291 safe eliminates the need to transfer cash to a separate vault for overnight storage
- Reduces vault transactions
- Reduces exposed cash

Technology

- Rapid, accurate and reliable note delivery

Designed for Simplicity

- Small footprint allows for easy integration without having to rework the branch
Slides under standard counter
- Dual workstation capability
- One touch easy cassette removal
- Large capacity cassettes are easy to load and require less downtime refilling
- User friendly 2 line display provides Error Status Messaging

Our **Model 6300** Currency Dispensers are supported by our nationwide network of Magner Authorized Distributors
