

The 62001 is a deluxe high-speed letter opener. It is ideal for large businesses and mailrooms where many envelope sizes and types occur and high speed opening is required. The machine will automatically feed, open, and collect a stack of envelopes at a speed of up to 17,500 envelopes per hour. Stacks of envelopes up to 6" tall and a 1/4" thick can be opened. The scrap width is adjustable with a control knob on the side of the machine. A removable catch tray is included. The envelopes and scrap are separated when ejected.

- ✓ Automatically feeds, opens, and collects a stack of envelopes at high-speed
- ✓ Adjustable scrap width
- ✓ Comes with a removable catch tray
