R3500

Retail, Connected Cash Office Management

THE R3500 SERIES IS A FLEXIBLE CASH OFFICE MANAGEMENT TOOL FOR RETAIL ENVIRONMENTS. WITH SINGLE AND MULTI-TILL OPTIONS R3500 ALLOWS USERS TO COUNT AND MANAGE CASH, COUPONS AND TOKENS ALONGSIDE BALANCES FROM CARD OR CHEQUE PAYMENTS.

The R3500 is designed to be a comprehensive cash room solution assisting the operator to perform everyday tasks using functions mapped specifically to them. The integrated numeric keypad allows balances and reference numbers to be entered and reported against. Count data can be sent in report format to a Tellermate printer or a PC.

R3500 is designed to shorten every day tasks allowing your staff to spend their time strengthening audit and security processes, analysing actual cash data and managing cash levels in the safe and on the shop floor. The result is cash that is processed more swiftly and securely so that more of it gets to your bank account more quickly.

The R3500 also facilitates the transfer of data into your back office system for analysis, allowing discrepancies to be quickly identified and acted upon.

“Installing Tellermate has radically improved and simplified our cash management, and has increased cash reconciliation speed and accuracy. Cash is better consolidated and the power of integration has given us cash visibility and audit ability.”
